Annex I

Letter from the Secretary of State for Foreign and Commonwealth Affairs of the United Kingdom of Great Britain and Northern Ireland and Secretary of State of the United States of America to the United Nations addressed to the President of the Security Council

The United States of America and the United Kingdom of Great Britain and Northern Ireland wish to inform the Security Council of the steps that have been taken with regard to ensuring Iraqi compliance with its disarmament obligations, as called for in Council resolution 1483 (2003).

Together with the Government of Iraq and other Member States, the United States and the United Kingdom, pursuant to the letter dated 8 May 2003 from their Permanent Representatives to the United Nations addressed to the President of the Security Council (S/2003/538), have been working since March 2003 with the objective of locating and securing, removing, disabling, rendering harmless, eliminating or destroying weapons of mass destruction, ballistic missiles and related delivery systems and programmes in Iraq developed under the regime of Saddam Hussein.

We wish to inform the Security Council that all appropriate steps have been taken to secure, remove, disable, render harmless, eliminate or destroy (a) all of Iraq's known weapons of mass destruction and ballistic missiles with a range of greater than 150 kilometres and (b) all known elements of Iraq's programmes established to research, develop, design, manufacture, produce, support, assemble and employ such weapons and delivery systems, subsystems and components thereof.

Furthermore, we wish to draw the attention of the Security Council to the conclusions of the report issued by the Special Advisor to the United States Director of Central Intelligence on Iraq's Weapons of Mass Destruction ("the Duelfer Report") following a review of Iraq's weapons of mass destruction programmes, undertaken by drawing upon information received from former Iraqi officials, other Iraqi citizens, suspected weapon sites and both technical and procurement-related documents. In the course of their investigation, Iraq Survey Group analysts visited suspected weapons-related sites and searched through documents. The report and its addenda are available from the following website: https://www.cia.gov/library/reports/general-reports-1/iraq_wmd_2004/index.html.

The letter dated 24 April 2007 from the Minister for Foreign Affairs of Iraq to the President of the Security Council (S/2007/236, annex) outlines additional actions that Iraq has taken and other actions that it intends to take in the near future to demonstrate and affirm to the international community its belief that it is now in full compliance with its disarmament obligations under the relevant Council resolutions.

Annex II

Letter dated 8 April 2007 from the Minister for Foreign Affairs of Iraq addressed to the President of the Security Council

[Original: Arabic]

I have the honour to address the present letter to you, and through you to the other members of the Security Council, requesting, on behalf of the Government of Iraq, that the Council consider terminating the mandates of the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) and the Iraq Action Team of the International Atomic Energy Agency (IAEA) established by the Security Council resolutions on the elimination and removal of former Iraqi weapons of mass destruction, as there are no longer any legal or technical grounds for continuing their mandate and we are certain that Iraq currently has none of the programmes or weapons in question. In this connection, please note the following:

1. Today Iraq has a democratically elected Government and a new Parliament in addition to a Constitution that has been approved by the Iraqis. Today it declares that it is joining the global democratic community in its support for the international non-proliferation regime.

2. Article 9 (e) of the Permanent Constitution of the Government of Iraq states that: “The Iraqi Government shall respect and implement Iraq’s international obligations regarding the non-proliferation, non-development, non-production and non-utilization of nuclear, chemical and biological weapons, and shall prohibit associated equipment, materiel, technologies and communication systems for use in the development, manufacture, production and utilization of such weapons”. This Constitution was approved by the Iraqi people in the national referendum held in 2005.

3. As Security Council members know, the Iraqi Government has cooperated fully with the Iraq Survey Group (ISG) in respect of the former regime’s weapons programme.

4. Today the Iraqi Government affirms its full commitment to the relevant Security Council resolutions and, in that connection, reiterates the request that it made to the President of the Council in March 2005, as well as the letter from the Iraqi Prime Minister of 11 November 2006 calling for the termination of the mandates of UNMOVIC and the IAEA Iraq Action Team.

5. The Iraqi Government reiterates its commitment to the Treaty on the Non-Proliferation of Nuclear Weapons, the safeguards agreement of the International Atomic Energy Agency, the Biological Weapons Convention and the 1925 Geneva Protocol for the Prohibition of the Use in War of Asphyxiating, Poisonous or Other Gases, and of Bacteriological Methods of Warfare. The provisional Iraqi Government announced previously in July 2004 its commitment to all the agreements and conventions on the prevention of proliferation. The Iraqi technical authorities have elaborated a draft law on Iraq’s accession to the Chemical Weapons Convention, which is currently before the Parliament — the country’s legislative branch — with a view to its adoption and preparations are under way for

accession to the Model Additional Protocol of the International Atomic Energy Agency's safeguards regime.

6. With regard to coordination with IAEA on a code of conduct on the safety and security of radioactive sources in Iraq, Iraq has set up an agency responsible for identifying radioactive sources in Iraq and guaranteeing their security, namely, the Iraqi Radioactive Sources Regulatory Authority. Since the fall of the previous regime, IAEA has made four successful verification visits to the Tuwaitha site — in June 2003, August 2004, September 2005 and, most recently, in November 2006.

7. The Iraqi National Monitoring Directorate is overseeing the transfer of dual-use substances and is now making every effort to harmonize Iraqi export legislation with international standards. Iraq has submitted its national report in accordance with its obligations under Security Council resolution 1540 (2004).

8. The Iraqi Government has undertaken to guarantee the security of its borders by strengthening controls in cooperation with the multinational force.

The Government and people of my country hope that the Security Council will make a serious and objective assessment of the situation in Iraq — namely, the absence of weapons of mass destruction and related programmes — and take the appropriate decision to terminate the mandate of UNMOVIC and the IAEA Iraq Action Team and transfer the balance in the Iraq account opened by the United Nations to the Development Fund for Iraq, for the purposes of investment.

I should be grateful if you would have the text of the present letter circulated to the members of the Security Council as a document of the Security Council.
