COUNCIL DECISION (CFSP) 2023/2871

of 18 December 2023

amending Decision 2014/145/CFSP concerning restrictive measures in respect of actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 29 thereof,

Having regard to the proposal from the High Representative of the Union for Foreign Affairs and Security Policy,

Whereas:

- (1) On 17 March 2014, the Council adopted Decision 2014/145/CFSP ⁽¹⁾.
- (2) In its conclusions of 26 and 27 October 2023, the European Council reiterated its resolute condemnation of Russia's war of aggression against Ukraine, which constitutes a manifest violation of the Charter of the United Nations, and reaffirmed the Union's unwavering support for Ukraine's independence, sovereignty and territorial integrity within its internationally recognised borders and its inherent right of self-defence against the Russian aggression. The European Council also stated that Russia's ability to wage its war of aggression must be further weakened, including by further strengthening sanctions, and through their full and effective implementation and the prevention of their circumvention, especially for high-risk goods, in close cooperation with partners and allies.
- (3) In view of the gravity of the situation, it is appropriate to adopt further restrictive measures.
- (4) In particular, the Council considers that 61 persons and 86 entities responsible for actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine should be added to the list of persons, entities and bodies subject to restrictive measures set out in the Annex to Decision 2014/145/CFSP.
- (5) Moreover, the listing criteria should be extended to cover natural or legal persons, entities or bodies benefitting from the compulsory transfer of ownership of, or control over, entities established in Russia that were previously owned or controlled by Union entities. It is also appropriate to set out the conditions on which the Council should be able to retain the name of a deceased person on the list of natural or legal persons, entities or bodies subject to the asset freeze and the prohibition on making funds and economic resources available, where it considers there is a likelihood that the assets concerned would otherwise be used to finance Russia's war of aggression against Ukraine or other actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine.
- (6) Furthermore, it is appropriate to introduce a derogation to allow for the release of frozen funds or economic resources in the event that a Member State has decided to deprive in the public interest a listed natural or legal person, entity or body of funds or economic resources belonging to, owned by or controlled by that person, entity or body, and for making funds and economic resources available to such person, entity or body in order for compensation to be paid, provided that such compensation is frozen.

⁽¹⁾ Council Decision 2014/145/CFSP of 17 March 2014 concerning restrictive measures in respect of actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine (OJ L 78, 17.3.2014, p. 16).

- (7) It is also appropriate to introduce a derogation from the asset freeze and the prohibition on making funds and economic resources available to allow for the sale or use of shares in, or assets of, an entity established in Russia where the ownership or control by a Union legal person of that entity has been compulsorily transferred by the Russian Government. That derogation would enable, *inter alia*, the payment of agreed adequate compensation to Union legal persons.
- (8) It is also appropriate to extend the deadline applicable to the existing derogation allowing the processing of payments by the Jewish Claims Conference through a listed bank. It is also appropriate to introduce a derogation to allow for certain payments as an indemnity or benefit for the materialisation of a risk involving a newly listed insurance company, and to extend to that newly listed entity the existing derogation currently applicable to certain listed banks, allowing for the purchase, import or transport of agricultural and food products.
- (9) It also appropriate to introduce a temporary derogation from the asset freeze and the prohibition on making funds and economic resources available to allow the sale and transfer of proprietary rights directly or indirectly owned by certain listed natural or legal persons, entities or bodies in a legal person, entity or body established in the Union.
- (10) Furthermore, it is appropriate to introduce a derogation from the asset freeze and the prohibition on making funds and economic resources available to allow for the termination of contracts concluded with a newly listed entity.
- (11) Finally, it is appropriate to make technical amendments in the operative text, define the scope of certain reporting obligations and introduce an obligation for national competent authorities of Member States to designate in accordance with national legislation the national authorities competent to identify and trace, where appropriate, funds and economic resources belonging to, or owned, held or controlled by, listed natural or legal persons, entities or bodies, with a view to preventing or detecting instances of a breach or circumvention, or attempts at a breach or circumvention, of Council Decision 2014/512/CFSP ⁽²⁾ and Council Regulation (EU) No 269/2014 ⁽³⁾. That obligation to designate does not necessarily require Member States to create a new authority.
- (12) Further action by the Union is needed in order to implement certain measures.
- (13) Decision 2014/145/CFSP should therefore be amended accordingly,

HAS ADOPTED THIS DECISION:

Article 1

Decision 2014/145/CFSP is amended as follows:

(1) Article 1 is amended as follows:

(a) in paragraph 1, the following point is added:

(b) the following paragraph is inserted:

‘1a. If natural persons listed in the Annex die during the period of application of the restrictive measures, the Council may retain the names of the deceased persons on that list if their delisting would pose a risk of undermining the objectives of Union restrictive measures because of a likelihood that the assets concerned would otherwise be used to finance Russia’s war of aggression against Ukraine or other actions undermining or threatening the territorial integrity, sovereignty and independence of Ukraine.’;

(c) the following paragraphs are inserted:

‘4a.
